Leymap report — full

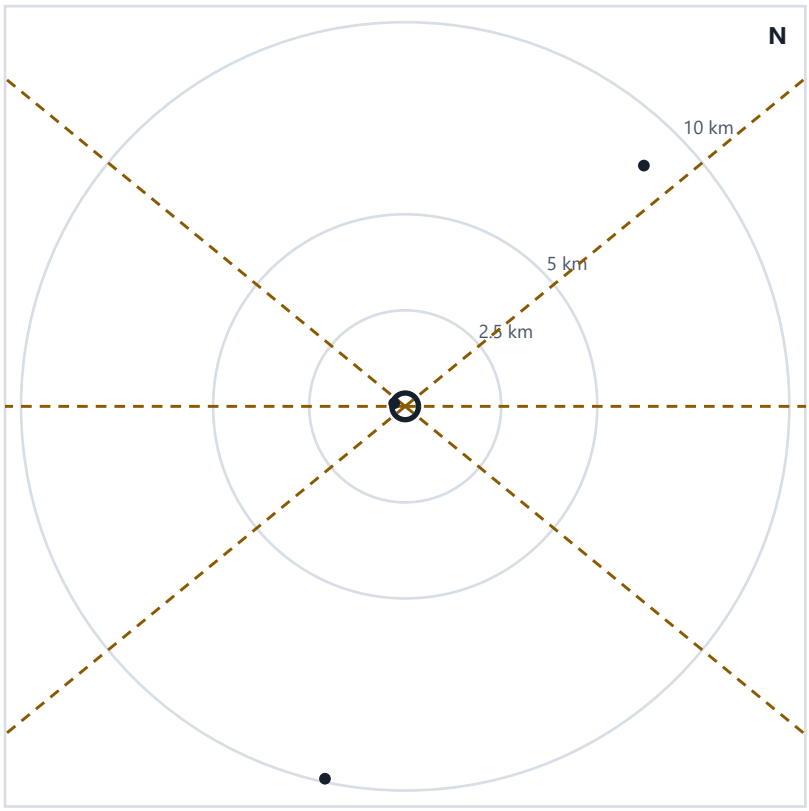
Ancient sites, alignments and sun axes

BA6 8BG (Somerset)

51.14229, -2.69849

SAMPLE — demonstration report

3 ancient sites within 10 km. No measured alignment passes within 2 km. St Michael axis 215 km away.



Sun axes

Sunrise, midsummer	50.7°
Sunset, midsummer	309.3°
Sunrise, midwinter	129.3°
Sunset, midwinter	230.7°
Sunrise, equinoxes	90.0°
Sunset, equinoxes	270.0°

→ Living Rock (0.3 km)

Black dot: megalithic site or St Michael
Grey dot: barrow, hillfort, holy well
Line: measured alignment
Dashes: sun axis from the address

Ancient sites within 10 km

Site	Type	Distance	Direction
Living Rock	Standing stone	0.30 km	285.7°
St Michael & All Angels	St Michael church	8.84 km	44.5°
St Michael and All Angels Church	St Michael church	9.97 km	192.1°

Measured alignments within 2 km

None. The nearest: alignment 280, 17.1 km away.

The St Michael axis

Your address is 215 km from the great circle fitted to the eight sanctuaries of St Michael and Apollo (Skellig Michael, St Michael's Mount, Mont-Saint-Michel, Sacra di San Michele, Monte Sant'Angelo, Delphi, Delos, Mount Carmel).

Three-point alignments through your address

None: no pair of sites within 15 km lines up with the address within 60 m.

Leymap · site data © OpenStreetMap contributors (ODbL) · geocoding postcodes.io (OGL) · computed on 26.11.2026
Ley lines are not a demonstrated physical phenomenon; this report describes geometry and compares it with chance.

Itinerary of notable sites within 30 km

1. Living Rock — Standing stone — +0.3 km (51.14302, -2.70260)
2. St Michael & All Angels — St Michael church — +9.0 km (51.19898, -2.60952)
3. Saint Michael's Catholic Church — St Michael church — +4.6 km (51.18750, -2.54592)
4. St Michael and All Angels — St Michael church — +5.8 km (51.22100, -2.48183)
5. St Michael & All Angels — St Michael church — +10.0 km (51.26002, -2.35249)
6. Stanton Drew Circle South-west — Stone circle — +19.5 km (51.36528, -2.57712)
7. Stanton Drew Circles And Cove — Stone circle — +0.2 km (51.36650, -2.57573)
8. Stanton Drew Circle North-east — Stone circle — +0.2 km (51.36775, -2.57470)
9. Saint Michael the Archangel — St Michael church — +5.6 km (51.39903, -2.63741)
10. St Michael and All Angels, Butcombe — St Michael church — +6.5 km (51.35387, -2.69733)

Loop of 85 km as the crow flies, including the return.

How to read this report

Sites come from OpenStreetMap and may be incomplete. Alignments are computed within a 120 m corridor, over 3 to 30 km, with at least 4 sites. The odds of chance compare the number of sites found with the number expected from local density (Poisson). Sun axes assume a flat horizon; relief can shift them. Full method: leymap.com/uk/method/
